2017 - 2019

B.C.Sc in HPC
University of IT, Yangon
2012 - 2017

PROFILE SUMMARY

Result-driven Senior Software Engineer with over 7 years of professional experience in mobile application engineering (Flutter, SwiftUI, Swift) and full-stack development. Specialist in architecting scalable Wallet-as-a-Service (WaaS) fintech applications, secure payment workflows (Omise), and automating CI/CD pipelines (Fastlane, GitHub Actions). Highly analytical engineer with a Master's degree in High-Performance Computing and published blockchain research in IEEE.

PROFESSIONAL EXPERIENCE

- Senior Software Engineer @ Opn Thailand Co., Ltd**
April 2024 - Present
 - Wallet as a Service (WaaS):** Lead iOS mobile developer on the WaaS product, building secure SDK features and integrating Omise API processing.
 - TICKETIER:** Designed and deployed event ticketing mobile applications, improving checkout conversion and secure payments.
 - Automation:** Standardized mobile build automation using Fastlane and GitHub Actions, cutting manual deployment times by 40%.
- Software Engineer @ Opn Thailand Co., Ltd**
July 2022 - April 2024
 - Developed responsive cross-platform mobile applications using Flutter.
 - Collaborated with backend engineers to integrate Omise payments and API layers.
- Full-Stack Developer @ One Atkhayar Co., Ltd**
August 2019 - June 2022
 - Shi Del:** Architected the backend and frontend from scratch, leading the team to launch and scale the lifestyle app on the App Store and Google Play.
 - Chat Chin:** Built Myanmar's top car servicing platform. Designed custom scrapers for real-time lists and location-based discovery searches.

SKILLS

CERTIFICATIONS

AWS Cloud Practitioner

Issued 2020

Chinese HSK Level 5

Issued 2019

Fundamental IT Engineer

Issued 2017

IT Passport (IP)

Issued 2016

EXPERIENCE (CONTINUED)

Software Developer (Part Time) @ Cloud Source Myanmar

July 2018 - September 2019

- Developed full-stack web applications featuring database CRUD actions using Ruby on Rails.
- Built and debugged hybrid mobile apps for iOS and Android using Ionic Framework.
- Designed UI/UX prototypes and interactive mockups with Sketch.

Web Developer Intern @ Acroquest Myanmar Technology

May 2017 - August 2017

- Programmed web systems using Java Spring MVC, MyBatis, jQuery, and MySQL databases.
- Conducted market and technical feasibility research on network vendor solutions.

PERSONAL PROJECTS

Daily Motivation App (SwiftUI + Firebase) (2023)

Developed a mood tracking application currently available on Apple TestFlight. Built visualizations to track user wellness trends over time.

News App (Flutter + Google Ads + API) (2021)

Co-developed and published a live news aggregator mobile app on the Google Play Store, integrated with AdMob.

Research Publication (IEEE) (2019)

Co-authored and published 'Electricity Billing System using Ethereum and Firebase' in IEEE, studying decentralized grid payments.

TRAININGS

Bigdata IoT / Pentaho training - Hitachi, Ltd. (2017)

IT Service Management - Hitachi, Ltd. (2016)

Android Game with Arduino Microcontroller Course - KOICA (2016)

Android Mobile Application Development - KOICA (2014)
